### **Guided Road Tour between Spa and Ring through the Mosel Valley**

- Included in your package: You can drive your track car from Spa to the Nurburgring, but via a detour covering the Mosel Wine Valley. The trip is about 250kms in total and we will stop for lunch at a cool monastery for a Bayern food experience. The Mosel trip contains great twisty roads and beautiful viewpoints along the route. This is a real treat for the spouses/friends for whom this is a relief from hanging out at the racetrack for 3 days straight!

### **RSR Edition cars vs Standard Cars**

Since many of you are seasoned track day drivers or racers, the following info is important.

We have a select number of so-called RSR Edition cars. These cars all have bucket seats (mostly HANS) harness, club sport coil-over suspension, corner weighted set-ups and semi-slick tires.

The standard cars do not have harnesses and sometimes have normal road seats. For the Nurburgring, there is nothing wrong with a standard car, certainly for your first visit. But, be aware of this!

For a full description please check the websites [RSRSpa.com](http://RSRSpa.com) and [RSRNurburg.com](http://RSRNurburg.com)
